## Reasons for Allowance

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance.

The instant invention recites an image display orientation control apparatus for use with scanner apparatus and display apparatus operatively associated with the scanner apparatus, comprising:

a first setting, said first setting causing an image of an object scanned by said scanner apparatus to be displayed on said display apparatus in a first orientation, said first setting being preserved for subsequent uses of said scanner apparatus until changed by a user; and

a second setting, said second setting causing said image to be displayed on said display apparatus in a second orientation, said second setting being preserved for subsequent uses of said scanner apparatus until changed by said user.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
